

Air international traffic in Middle East: Drivers and trends

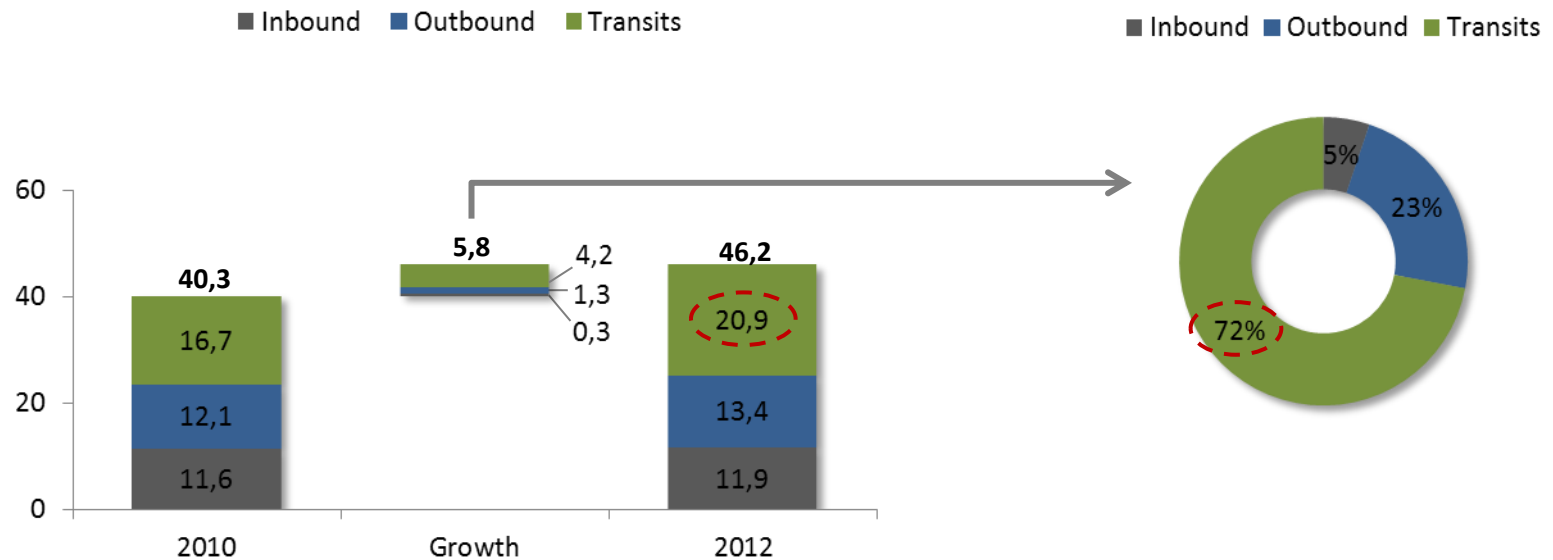

Air traffic in Middle East¹ driven by transits

- ▶ Air traffic in Middle East is determined by people using the region as a hub; this segment was responsible of majority of the traffic growth seen from 2010
- ▶ Second air traffic driver (both in relevance and performance) is the outbound market

Air international traffic in Middle East by category²
(Million Pax; 2010-12)

Growth contribution by category (% of growth, 2010-12)

Notes: (1) As per UNWTO classification

(2) "Transits" includes all those passengers that do not stay one night at destination
